## CORRUGATOR

~ Fanfold system

At AL-GAR, we adapt the corrugator's stacker to manufacture continuous sheets of marked and accordion-folded corrugated cardboard.

### The system comprises the following equipment:

- Metallic grills. The first of which, rocking.
- Cardboard dragging rollers.
- Group for creasing.
- Curved hopper.
- Automatic or manual sheet output.

### The general specifications are as follows:

- Maximum production speed depending on the quality: 120 m/min.
- Folding speed: 300 - 2450 mm.
- Folding length: 800 - 1200 mm.
- Minimum pile height: 800 mm.
- Maximum pile height: 2000 mm.
